The Secret of Sailor Mars' Birth

Can you remember the first time Raye transformed into Sailor Mars? Here's Raye's first battle.

Scout Guide

Lately, Raye's powers have been off: Today she mistakes Serena for an evil spirit!

Raye was well known as the girl from the Hikawa Temple with psychic powers. She has a good reputation for telling fortunes. Raye senses an evil presence with her psychic powers. Is this an Enemy?

Raye transforms into Sailor Mars! After a series of mysterious events nearby, Serena heads for the Hikawa Temple.

She tried to enlist the help of the psychic girl from the temple, but Raye's predictions were all wrong for some reason.

When Luna hears about what happened, she suspects that these events are the work of an evil creature. Just as she thought, the disappearance of the bus was caused by the Negaverse. Bunny follows the bus, and is swept into another dimension. Raye discovered who Jeditte really is, and is transported there too. Now I'll have an even bigger following! Hee, hee.*

Scout Guide

It's created by concentrated energy from the power of the crescent moon symbol, and released instantly through my fingertips in a beam of light. My Venus Crescent beam is super-fast! It's the fastest power possessed by any of the Sailor Scouts! Oh, by the way, it's called "crescent" as in "crescent moon."

Sometimes, when an adversary is close, the beam releases right from the jewel in my tiara.

Crescent Beam Shower

I can also use the Crescent Beam as a shower so that it covers a wide area.

I used it for the first time when I fought the two cardians.

This attack can destroy lots of monsters all at once.

I'll often use my powers together with Sailor Jupiter.

Sailor Scouts Book One

Although I was the last to join, I was actually the very first Sailor Scout. I'll show you how it happened, and the secrets behind it!

Scout Guide

I became a Sailor Scout about a year before Serena. Before I joined the Sailor Team, there was a rumor that I was a special agent of the Metropolitan Police. I've even fought battles in England as I chased after monsters from the Negaverse.

Sailor V sets off for England in pursuit of her enemy, the Youma.

The name Sailor V becomes known to Serena and her friends.

Even in England, Sailor V dealt with a lot.
